

# Data Sheet

Developed and manufactured by ATP,  
leaders in ASD pipe flushing solutions.

## PurgePoint

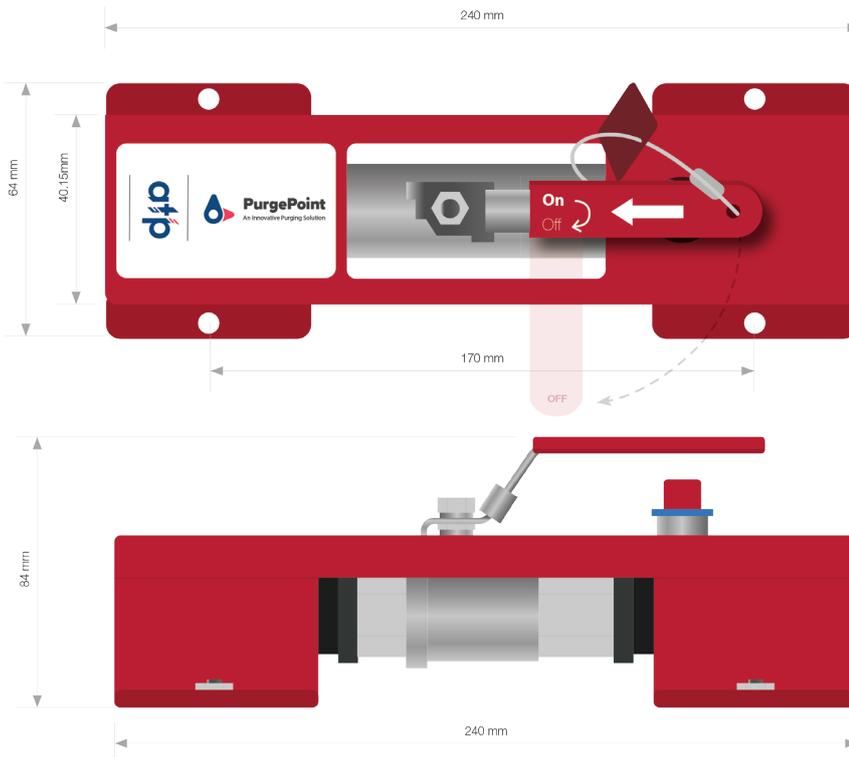

An Innovative Purging Solution

**Product Name:** PurgePoint  
**Part Number:** ATP-PURGEPOINT  
**Product Description:** Manual Pipe Flushing Unit  
**Product Use:** Removing contaminants located within Aspirated smoke detection (ASD) Networks  
**Manufacturer Name:** Advanced Technology Products  
**Manufacture Website:** www.atpsolutions.co  
**Product Information:** sales@atp-solutions.net  
**Life Expectancy:** 10 Years  
**Dimensions:** 240 x 64 x 82 mm  
**Maximum Pressure:** 4bar / 60 PSI

**Pipe Size:** 25mm PVC Vesda Aspirated Sampling Pipe (E700-P)  
**Installation Orientation:** Vertical / horizontal  
**Durability:** Water & Dust Resistant  
**Fixing (supplied):** 4 of M5x33 Heavy Duty Nylon Anchor  
**Colour:** Red (RDA00006)  
**Compliance:** Provides a safe operation to perform maintenance to current codes and standards  
**Purge Connection Point:** 12mm Push-fit Pipe / Tubing  
**Weight:** 0.6 kg (Excludes Packaging)  
**Installation Location:** Fit and glue 500mm from the ASD unit  
**Glue Type:** PVC Pipe Cement Type P (E700-GLUE)

| Material Section        |                                 |
|-------------------------|---------------------------------|
| Internal                |                                 |
| Valve take-off Adaptor: | PVC Plastic                     |
| Ball Valve:             | 316 Stainless Steel (non-brass) |

| External         |                        |
|------------------|------------------------|
| Push-in Fitting: | High alloy steel       |
| Wire:            | 304 Stainless Steel    |
| Ferrel:          | Copper (Nickel Plated) |
| Tag:             | Aluminium              |
| Housing:         | ABS Plastic            |
