DISCONTINUANCE NOTICE: IFS-2600 Fire Alarm Control Panel

Dear Valued Customer,

In our continuous effort to improve our product offering and meet changing regulatory requirements, NOTIFIER is discontinuing the IFS-2600 series Conventional Fire Alarm Control Panel.

It is our intention to continue to offer replacement boards for the discontinued product until the cost of circuit board components are prohibitive or vendor supplied components become obsolete.

The CFP-16 series is the recommended alternative to the IFS-2600 series. Please contact your Notifier Systems Consultant to discuss specific IFS-2600 replacement application or support questions and technical questions should be directed to NOTIFIER technical support.

Sincerely,

James Edwards
Product Manager
